

# ICALEPCS 2015

International Conference on Accelerator  
& Large Experimental Physics  
Control Systems

## **A Multi-Modal Human-Machine-Interface for Accelerator Operation and Maintenance Applications**

**R. Bacher  
DESY**

**WEM308**

# ICALEPCS 2015

International Conference on Accelerator  
& Large Experimental Physics  
Control Systems

## Imagine ...

- .. you can **talk** to your controls application to **open a vacuum valve**
- ... you can **change a set value** of a magnet power supply by **performing a circle** with your hand
- ... you can **launch** a controls application by **spreading your fingers**
